Plantation, FL

ConEdison Solutions is an experienced, multi-disciplined energy service provider...

Sustainable Energy and Services

ConEdison Solutions helps to develop a sustainability plan to reduce your carbon foot print, reduce your energy consumption, and enhance the performance of energy-consuming equipment.

Options include:

- Installation of energy-efficient equipment;
- Evaluation and implementation of on-site green energy generation;
- Assessment of your facilities for the Leadership in Energy and Environmental Design (LEED)™ certification;
- Purchase of renewable energy and/or Renewable Energy Credits (RECs).

Energy Savings Performance Contracting Services

Provides K–12 schools, colleges, and universities, state and federal governments, municipalities, and hospitals, with a way to improve their environments, upgrade facilities, reduce energy consumption, and lower energy bills, with little or no impact to capital or energy budgets and minimal to no up-front costs.

Design-Build Services

A well established method of providing comprehensive construction services that combines the design and implementation functions to speed project delivery, provide greater assurance of project quality and better control costs. With a design-build project, one firm manages and controls the entire project from conception through construction.

ConEdison Solutions Energy Services Division

- Air Filtrations Systems
- Automatic Metering Infrastructure (AMI) and Automatic Meter Reading (AMR)
- Biomass Generation System
- Building Automation Systems
- Building Envelope Measures
- Central Plants—Boilers and Chillers
- Compressed Air Systems
- Demand Response Services
- Domestic Hot Water Systems
- Emergency Backup Generation
- Energy Auditing Services
- Energy Feasibility Studies
- Energy Performance Contracting
- Energy Optimization
- Energy Rebate and Incentive Processing
- Engineering/Design and Build Services
- Environmental Services and Regulatory Compliance
- Geothermal Distribution Systems
- Heating, Ventilation and Air Conditioning (HVAC)
- Hydroelectric Generation
- LEED™ Consulting
- Lighting and Lighting Control Systems
- Measurement and Verification
- Motors, Drives and Pumps
- Solar Photovoltaic Systems
- Steam System Upgrades
- Waste-Water System Upgrades
- Water Conservation Measures
- Wind Systems

Sustainability from Boiler Room to Board Room
