ConEdison Solutions is an experienced, multi-disciplined energy service provider...

**Sustainable Energy and Services**

ConEdison Solutions helps to develop a sustainability plan to reduce your carbon foot print, reduce your energy consumption, and enhance the performance of energy-consuming equipment.

**Options include:**

- Installation of energy-efficient equipment;
- Evaluation and implementation of on-site green energy generation;
- Assessment of your facilities for the Leadership in Energy and Environmental Design (LEED)™ certification;
- Purchase of renewable energy and/or Renewable Energy Credits (RECs).

**Energy Savings Performance Contracting Services**

Provides K–12 schools, colleges, and universities, state and federal governments, municipalities, and hospitals, with a way to improve their environments, upgrade facilities, reduce energy consumption, and lower energy bills, with little or no impact to capital or energy budgets and minimal to no up-front costs.

**Design-Build Services**

A well established method of providing comprehensive construction services that combines the design and implementation functions to speed project delivery, provide greater assurance of project quality and better control costs. With a design-build project, one firm manages and controls the entire project from conception through construction.
