

Sustainable Energy Solutions for Today & Tomorrow

Comprehensive Energy Expertise
Plus Nearly Two Centuries of
American Corporate Heritage

The Con Edison Clean Energy Businesses develop, own and operate renewable energy and energy infrastructure projects, and have served wholesale and retail clients nationwide for more than twenty years:

Con Edison Development designs, builds, operates, and maintains utility-scale renewable energy generation assets throughout the United States. The company owns and operates utility-scale solar and wind installations totaling over 3,200 MW (DC) across 17 states. Investments in renewable energy generation to date total approximately \$6 billion.

Con Edison Energy manages fuel procurement and electricity dispatch for more than 70 independent power plants whose combined generation capacity is nearly 10,000 MW. The company's energy experts have negotiated more than 125 master agreements and offer services from energy management consulting and strategic planning to core logistics such as bidding and scheduling, fuel management, and hedge execution. Clients can also tap the services of marketing, risk, settlements, and regulatory staff.

Con Edison Solutions provides renewable energy and sustainability services, battery storage solutions, and comprehensive energy services for businesses, government, education, and healthcare clients. The company offers on-site and off-site renewable energy solutions, including community solar, for businesses and public-sector clients nationwide and select residential markets. Con Edison Solutions has developed and constructed more than \$2 billion in energy infrastructure projects and has more than ten years of experience in solar.

Reinvent Energy With Us

The Con Edison Clean Energy Businesses are committed to energy innovation and to conserving natural resources. Inspired by our parent company's heritage, we are working to reinvent energy to help you reduce your carbon footprint and energy costs today, while advancing renewable energy for tomorrow.

A Nearly Two Hundred Year Corporate Heritage

Since 1823, the Consolidated Edison, Inc. family of companies has upheld its commitment to develop, maintain, secure, and enhance the viability and sustainability of our nation's energy infrastructure.

Consolidated Edison, Inc. is an energy holding company that owns the outstanding common stock of the Consolidated Edison Company of New York, Orange and Rockland Utilities, Inc., Con Edison Clean Energy Businesses, Inc., and Con Edison Transmission, Inc.

Consolidated Edison, Inc. pursues energy opportunities nationwide through its subsidiary, Con Edison Clean Energy Businesses, Inc., which includes: Con Edison Solutions, Con Edison Development, Con Edison Energy, and Con Edison Battery Storage.

Generating & Supplying Clean Energy for America
